

Tornado™

Purpose

- ▶ A continuous, self-cleaning filter that protects analyzers by removing hard particles from liquid sample streams.
 - ▶ Can be used to pre-filter samples going to a Series 200 Genie® Membrane Separator™.

Model 602

- ▶ Single piece, multi-layer stainless steel filter media
- ▶ All connection ports are on the housing, and cover can be unbolted for easy access to filter media without dis-connecting tubing.
- ▶ 1/2" NPT ports are at 90° angles eliminating odd-angle tubing bends
- ▶ Rated for 1,500 PSI (MOP)
- ▶ Several micron sized elements available
- * See the Tornado™ Model 602 product sheet for additional information.
